the stordes études

exercises through which the  
interventions and practices in an  
organisation can be experimented with

unseen thinking and sculpting towards  
an organisation as a work of art

*JL* 10-2023

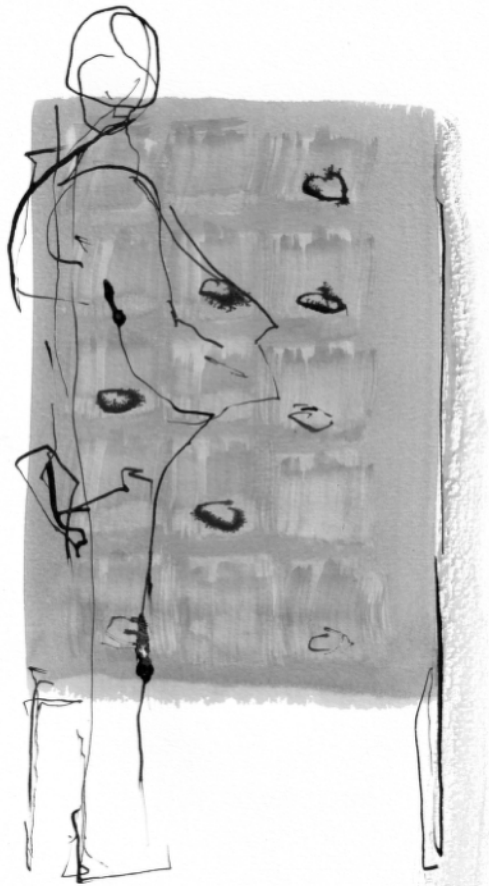

## collected reflections on us

construct a cabinet with compartments  
that each can hold a small pebble (3-4 cm)  
put it in a central place in your building

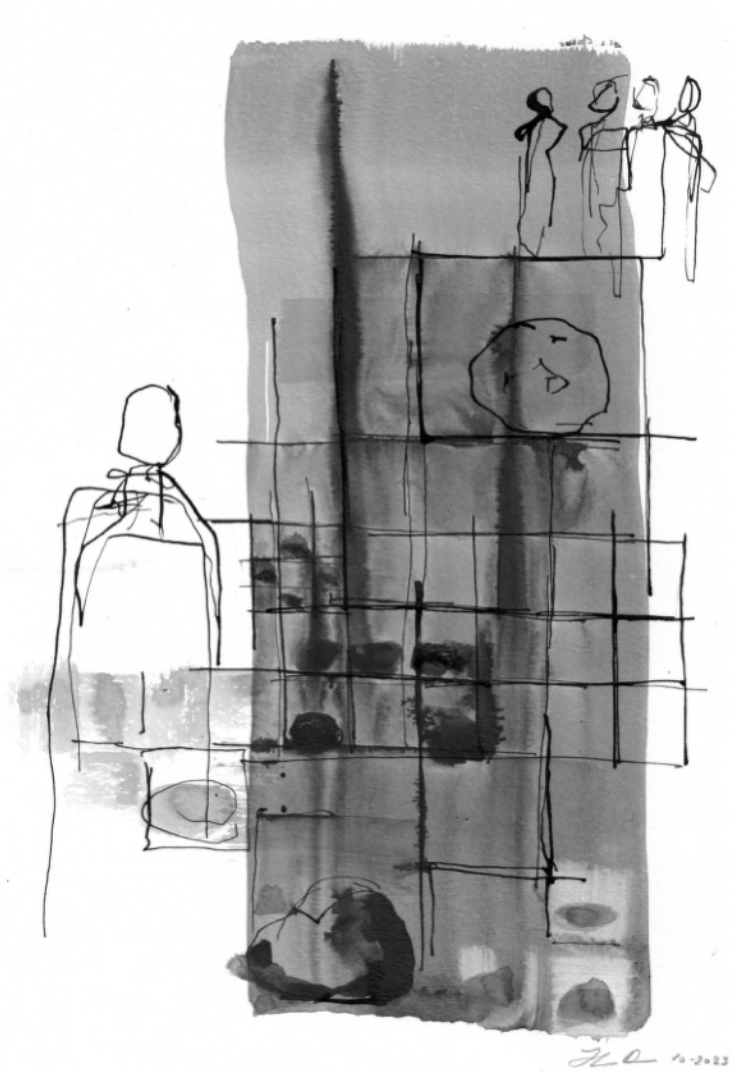

put a pile of pebbles in front of the cabinet  
with the instruction:  
'pick up a pebble  
take some time pondering about  
how can I contribute to us?  
place the pebble in one of the empty compartments'

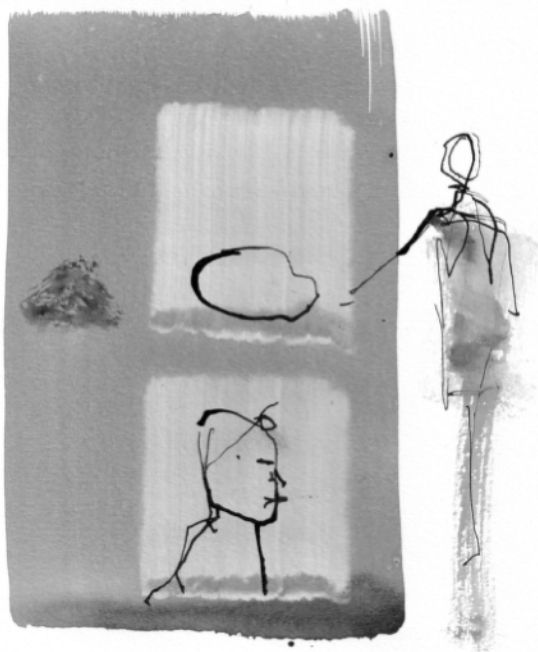

make regular pictures of how the cabinet is filled

once the pile has gone,  
organise an open space session on us  
around the filled-up cabinet
